Dr. Stephen Lukasik
Vice President and Manager
Northrop Research Center
1 Research Park
Palos Verdes Peninsula, California 90274

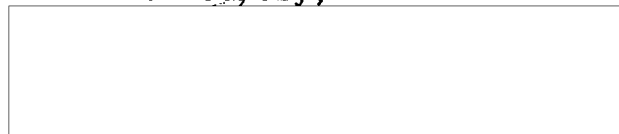

Dear Dr. Lukasik:

Your presentation on the use of consultants and panels in the intelligence process was important in making the Agency's first Seminar on Science and Technology Forecasting a success. I would like to express our appreciation to you for finding time in your busy schedule to address the seminar.

The analysts found your views helpful in evaluating the value of "outside sources" in science and technology forecasting. Your discussion also helped in focusing in on some of the key issues raised in earlier sessions of the seminar.

The Office of Training and Education hopes that it may call on you again for any future seminars on S&T forecasting.

Sincerely,

Director
of
Training and Education
